210 Martin Luther King, Jr. Blvd
Madison, WI, 53709

FROM: Kathy Bullis, Kraft Foods

SUBJECT: Proposed Bike Path

In October of 2009 you met with representatives of Kraft Foods to present a proposal to run a bike path through the Hartmeyer property that is presently leased by Kraft. You presented a variety of options for our review with the main purpose to bridge access from Commercial Avenue to Roth Street. The option that appears to be most reasonable to pursue would be the route that goes west around our parking lot to Roth Street.

After further review we feel that although there are several items of concern, we would like to continue to work with the City to move this proposal forward. On a general note, our areas of concern include enhancing our security system to allow complete surveillance of the area being considered and to keep users of this bike path out of the Kraft parking lot. Further, any final agreements will be reviewed by the Hartmeyer estate.

At our earlier meeting, you observed that there were other property owners that you also needed to contact. Once you have received needed permission from them, please feel free to get back in contact with us.

Sincerely,

Kathy Bullis
